

Hyperconverged Infrastructures 1 Day Bootcamp

Pre-Requisites:

- No Pre-Requisites
- Data Center Knowledge Preferable
- Virtualization Basics Preferable

Audience:

- IT Graduates/Students
- Datacenter Admins
- Datacenter/ IT Professionals

Pricing

- Bootcamp Fee: US\$ 600 (Per person)
- Covid-19 discount 10%
- Limited Seats (16 only)
- Time 9:00 am to 5:00pm
- Remote (online)

Course Content:

This instructor led 1 Day bootcamp will give you a real insight to the next big wave in datacenter technologies which is Hyper converged infrastructures. The bootcamp is designed to walk participants through the components of HC Infrastructures and concepts like de-duplication, compression, IOPs, Erasure Coding and Log Structured File Systems. This vendor neutral bootcamp will also highlight performance analysis mechanisms and workloads assessments for the next generation datacenters. This bootcamp is a very good starting point for anyone looking for learning cutting edge **Hyperconverged Infrastructures** technology.

Time	Topic
9:00-9:30	Introductions and bootcamp overview
9:30-10:30	What is hyperconvergence and why should we learn it?
Coffee Break	
10:40-11:30	HCI Concepts: IOPs, De-duplication, Compression, Erasure Coding
11:30-12:00	Distributed Storage and Data Locality
LUNCH BREAK	
1:00-2:00	Major HCI Solutions in the industry
2:00-3:00	Video Demo or Hands on Lab
Coffee break	
3:15-4:00	All Flash Solutions, Applications suited to HC infrastructures
4:00-4:30	How to assess performance of HCI infrastructures
4:30-5:00	Hybrid Cloud Strategies – Use Cases
